

ROBOT ULTRASONIC FOOD CUTTER SRC-88

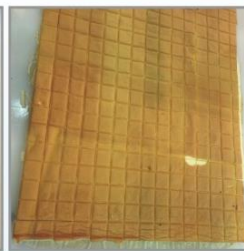

Angle cut cake with cream topping

Angle cut round cheese cake

Straight cut roll cake

Rectangle cut cake for taste, 2x2 cm

Rectangle cut ice cream cake, -20°C

Features:

- Ultrasonic food cutting unit is mounted on Clean room grade robot arm. The operation is reliable and flexible. Also, there is no contamination of lubricant.
- It can be with fixed platform or conveyor platform; and with the visual system to achieve automatic alignment.
- The ultrasonic cutting horn is made of titanium alloy, comes to sanitary standards.
- Intuitive control panel with touch screen; multiple cutting formulas can be memorized.

Working Area:

Max. W1000x D800mm
Height: 60mm/ 160mm

Shapes:

Round food/ angle cut
Square, rectangle food/ straight cut, rectangle cut, oblique cut, slices.

Cutting horn:

Standard: W320mm, effective height: 60mm
Maximum: W400mm, effective height: 160mm

ROUND FOOD ULTRASONIC CUTTER SC-2AR

3-AXIS ULTRASONIC FOOD CUTTER SC-3A

Frozen cake

Frozen pie

Cheese slices

Gluten-free bread

Biscuit cake

Fruit cake

Walnut cake

Roll cake

Features:

- This machine is an entry level model, suitable for cutting round foods such as cakes, pies or cheese.
- Thanks to its compact size, it is flexible to settle in limited workplace.
- Mainframe is made of stainless, meets hygienic standards.
- The cut surface is clean and smooth. The time spent on routine cleaning is shorten; about 70%~90% lesser than traditional cutting equipments.

Working Area:

Max. diameter 310mm; Height: 60mm

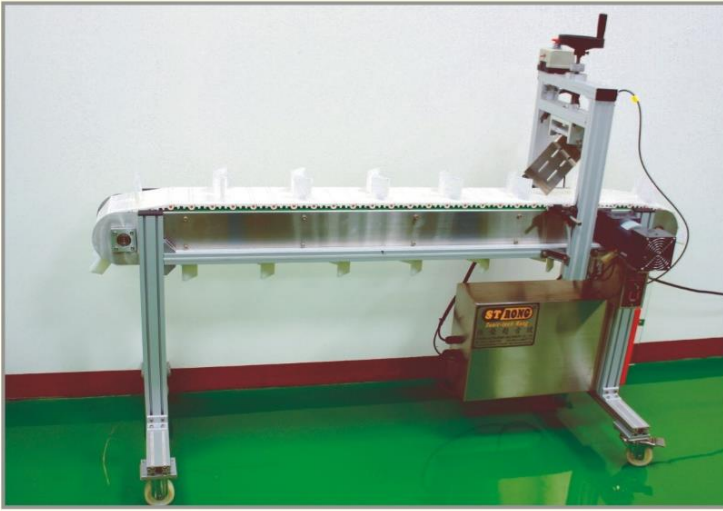

Features:

- This model is suitable for low to medium production level of the baking industry and cheese production.
- The cut surface is clean and smooth. Frequently cleaning is not required in order to get clean cuts.
- Angle cut for round products, rectangle cut and slice cut for square products are both capable.
- Intuitive control panel with touch screen; multiple cutting formulas can be memorized.

Working Area:

Max. work area: W310x D300mm

Height: 60mm/ 160mm

1-AXIS ULTRASONIC FOOD CUTTER SC-3C

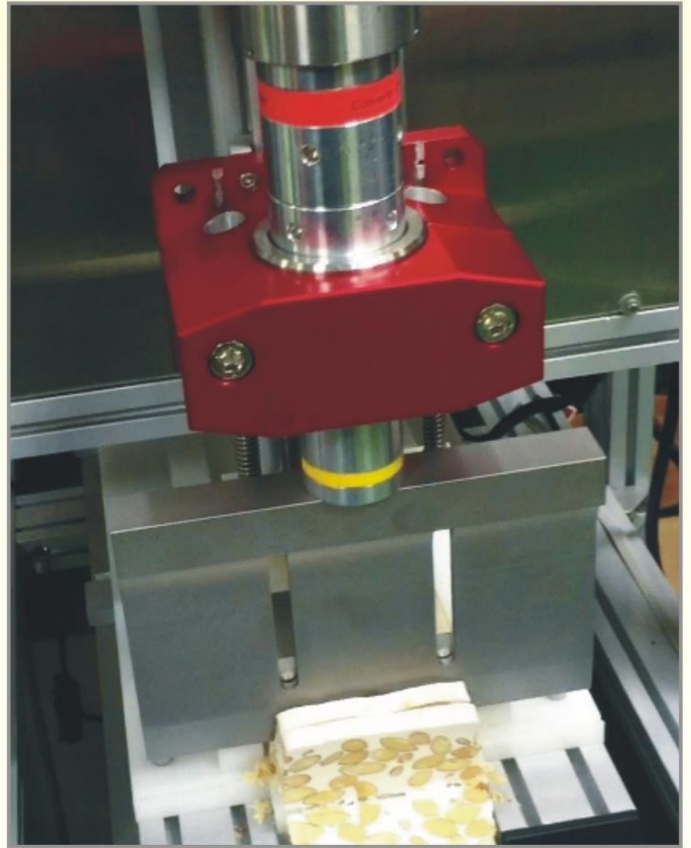

Cut sandwich

Features:

The ultrasonic cutter is set above the conveyor. Products, such as sandwiches, spring rolls or other roll products, are cut in half rapidly after passing through the ultrasonic cutter.

Working Area:

Max. effective height: 60mm

2-AXIS ULTRASONIC FOOD CUTTER SC-2AH

Features:

- This machine is entry model, suitable for cutting foods into square or slices; even hard products like cheese or nougat. The simple design is not only easy to operate but also easy to clean and maintain.
- Platform is driven by servo motor, products is moved in fixed distance and thus the thickness of slices are controlled.
- Intuitive control panel with touch screen; multiple cutting formulas can be memorized.

Working Area:

Max. work area W310x D300mm

Height: 60mm/ 160mm

HANDY TYPE ULTRASONIC FOOD CUTTER SC-H

Features:

- The ultrasonic cutter is mounted on the hand gun; light and portable. It can be used to cut food products in anywhere.
- The cut surface of products is smooth and clean.
- Routine cleaning is not highly required, maintenance is also easy.

Features:

- Mainframe is made of SUS, comes to sanitary standards. All axis are driven by servo motors, distance controlling is reliable.
- It can be with fixed platform or conveyor platform; and with the visual system to achieve automatic alignment.
- The ultrasonic cutting horn is made of titanium alloy, comes to sanitary standards.
- Intuitive control panel with touch screen; multiple cutting formulas can be memorized.

Working Area:

Max. W600x D600mm
Height: 60mm/ 160mm

Shapes:

Round food/ angle cut
Square, rectangle food/ straight cut, rectangle cut, oblique cut, slices.

4-AXIS ULTRASONIC FOOD CUTTER SC-XYZ

Roll cakes

Walnut cake

Fruit cakes

Brown sugar cakes

Specifications:

MODEL	DESCRIPTION	DIMENSION/cm	WEIGHT	REMARK
SRC-88	Robot ultrasonic cutting machine	170Wx 150Dx 190H		Round, rectangle, straight products
SC-2AR	2 axis ultrasonic cutter for round cakes	55Wx 80Dx 170H		For round products
SC-3A	3 axis cutter for rectangle and straight cakes	60Wx 80Dx 180H		Multiple shapes and hard products
SC-3C	Conveyor continuous ultrasonic cutter	200Lx 80Wx 150H		Continuous cutting
SC-2AH	2 axis cutter for hard products			For hard products with pusher
SC-H	Handy type ultrasonic cutter			Handy cutter
SC-XYZ	4 axis ultrasonic cutter	100Wx 150Dx 190H		Round, rectangle, straight products
